Professional Summary

Junior Software Engineer specializing in full-stack web development using Next.js, TypeScript, and Node.js. Experienced in building and deploying production-ready applications, including an AI-powered transcription platform. Strong focus on scalable architecture, performance optimization, and clean, maintainable code.

Technical Skills

Languages: JavaScript, TypeScript, Python

Frontend: React.js, Next.js, HTML5, CSS3

Backend: Node.js, Express

Databases: MongoDB, MySQL, SQLite

Tools: Git, Mongoose, Vercel

Projects

Lecsy – AI-Powered Transcription App

Live: <https://lecsy.vercel.app/>

GitHub: <https://github.com/mohand-amged/Lecsy>

- Built a full-stack AI-powered transcription platform using AssemblyAI API
- Developed frontend using Next.js and TypeScript with dynamic routing
- Implemented backend services with Node.js for handling audio processing
- Integrated authentication system and deployed application using Vercel
- Designed scalable and production-ready architecture

Subscription Management App (In Progress)

GitHub: <https://github.com/mohandamged70m/SubscriptionApp>

- Developing a mobile application to track and manage recurring subscriptions
- Built responsive UI using React Native and NativeWind
- Implemented subscription tracking logic and billing reminders
- Led end-to-end development from concept to implementation
- Integrated AI-based code review tools to improve code quality

Professional Experience

Sales Representative – Carrefour (Feb 2025 – Oct 2025)

- Delivered high-quality customer service in a fast-paced environment
- Resolved customer issues efficiently, improving satisfaction
- Strengthened communication, problem-solving, and teamwork skills

Education

Alexandria University – Bachelor of Arts, Geomatics (Expected 2027)

Focus on spatial data analysis, mapping, and GIS
